

Technology Device Fee

Students in grades 3-12 will be assigned a Chromebook following the payment of a Technology Device Fee. This fee provides for service, updates, and basic repair on devices assigned to students.

About the Fee

- Students must pay a \$30 fee in order to be issued a device in 2023-24.
- This fee is reduced to \$15 for students with Reduced Fee Meal Benefits and to \$0 for students with Free Meal Benefits. These will be automatically prorated based on 2022-23 school year status. If you did not qualify for meal benefits in 2022-23 but feel you may qualify now, contact YSD1 Food Service at 803-684-9916 to complete an application.

Paying the Fee

- Online payments are accepted at <https://osp.osmsinc.com/p/VT006-1>. Payments can also be made in person at your child's school.

Malicious Damage

The technology fee doesn't cover malicious damage. This fee covers some of the daily repairs and warranties on the devices. Any student that has maliciously damaged a device will be invoiced for the entire cost of the repair of the device. Multiple offenses will result in the loss of user privileges of school owned technology.
